	If you could go back to the start of this school year and change something, what would it be?	What will you miss the most about your school when the summer holiday starts?	What was difficult for you at the start of the school year, but feels easy now?	What is the nicest thing a classmate did for you this year?	Which thing you are you most proud of?	What are you looking forward to in the next school year?
	What was the best thing we did at school this year?	What was the funniest non-school activity we did this year?	What was the easiest subject you worked on this year?	What do you like best about our classroom? Why?	In which subject have you improved the most during this year?	Are you looking forward to the summer holiday?
	What was the most boring thing we did at school this year?	What was the most fun school activity we did this year?	Is there anything you wish you had learned more about this year?	Which area of the school is your favourite place? Why?	Do you feel ready for the next school year?	What are you looking forward to doing in your summer holiday?
	Choose three words that describe this school year.	Which day do you remember as the best one this school year?	What is the most important thing you learned this school year?	What will you miss the most when this school year ends?	Which subject do you want to work harder on next year?	What does your dream summer holiday look like?
	What will you miss about your classmates when the summer holiday starts?	What was the most exciting topic we worked on at school this year?	What are you most proud of learning this year?	What was the best part of the school day this year?	What goal do you have for next school year?	Are you spending your summer holiday in Denmark this year?
	What will you miss most about your teachers when the summer holiday starts?	What was the hardest topic you worked on at school this year?	What is the nicest thing you did for a classmate this year?	What was the best book you read this year?	Give some advice to the students who will be in this grade next year.	Tell about something you hope will happen during your summer holiday.
