

MY SPOOKY ANIMALS BOOKLET

NAME:

SPOOKY ANIMALS

Some animals can seem a little spooky which makes them perfect for Halloween.

In this booklet, you can read about bats and spiders, black cats and rats. You will learn about cockroaches and wolves too.

You will learn what the animals look like and what they can do.

Get ready to meet some spooky animals!

BATS

A bat is a mammal although it has wings and can fly.

Bats sleep during the day and are awake at night. They can fly in the dark. They use sound to steer when they fly.

Bats live in caves and other dark places. Some bats eat mosquitoes and moths. Other bats eat fruit.

Difficult words: (Oversæt til dansk)

bat		awake	
mammal		caves	
wings		mosquitoes	
sleep		moths	

BATS

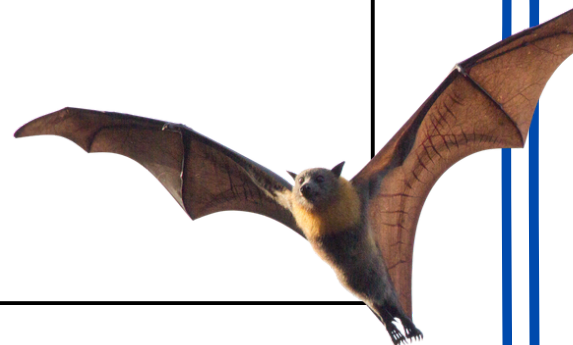

Do you remember?
Write four things you have read about bats.

1

2

3

4

SPIDERS

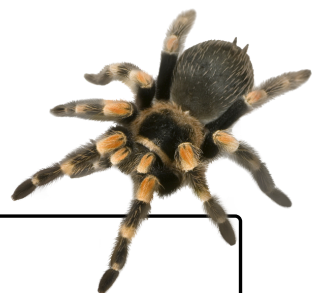

A spider has eight legs and two parts to its body. Some spiders have eight eyes.

A spider can make a web and catch flies and other small creatures in the web. The spider eats the small creatures.

Many spiders have venom. They use the venom to catch their food.

There are both small and big spiders.

Difficult words: (Oversæt til dansk)

spider		web	
eight		catch	
legs		flies	
parts		venom	

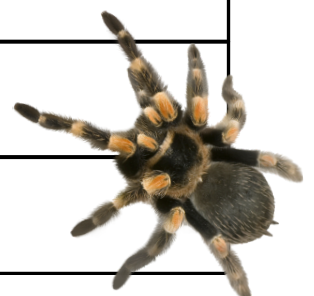

SPIDERS

Do you remember? Find the answers to the questions in the text and write them on the lines.

How many legs does a spider have?

What can a spider catch in its web?

What do spiders use their venom for?

BLACK CATS

Most people have seen a cat before. A cat can see well in the dark. It can also hear very well. Cats have sharp claws. They use their whiskers to feel things around them.

Black cats are often seen at Halloween. In old stories, witches have black cats.

Some people once thought that black cats brought bad luck.

Difficult words: (Oversæt til dansk)

dark		whiskers	
hear		feel	
sharp		witches	
claws		bad luck	

BLACK CATS

Do you remember?
Read the sentences and tick YES or NO.

	YES	NO
Most people have seen a cat before.		
A cat cannot see well in the dark.		
Cats have sharp claws.		
Black cats are often seen at Christmas.		
In old stories, spiders often have black cats.		
Some people once thought black cats brought good luck.		
Cats use their whiskers to feel things around them.

1.		5.		9.	
2.		6.		10.	
3.		7.		11.	
4.		8.		12.	
				13.	

RATS

A rat is a small animal with a long tail and round ears. It has sharp teeth that grow all its life.

Rats can run and climb. They are also good swimmers. Rats are often awake at night. They can eat almost anything.

Rats can live close to people. They can live under houses and in sewers.

Difficult words: (Oversæt til dansk)

rat		climb	
tail		swimmers	
teeth		awake	
grow		sewers	

RATS

Do you remember? Find the answers to the questions in the text and write them on the lines.

What happens to a rat's teeth all its life?

What are rats good at?

What can rats eat?

COCKROACHES

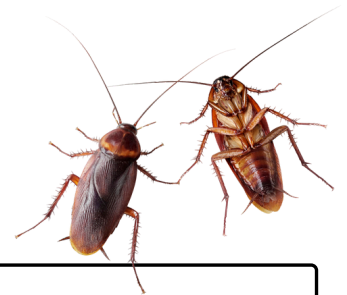

A cockroach is an insect. It has six legs and two long feelers.

A cockroach can run very fast. Most cockroaches are awake at night. They like dark and warm places. Some cockroaches have wings and can fly.

Many people think cockroaches are creepy. They move fast and can suddenly appear.

Cockroaches have lived on Earth for millions of years.

Difficult words: (Oversæt til dansk)

cockroach		warm	
insect		wings	
feelers		creepy	
dark		move fast	

COCKROACHES

Do you remember?
Colour the sentence with the correct answer.

A cockroach has six legs.

A cockroach has eight legs.

Most cockroaches are awake at night.

Most cockroaches are awake during the day.

Cockroaches like light and cold places.

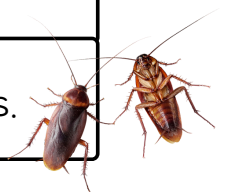

Cockroaches like dark and warm places.

Some cockroaches have wings and can fly.

Some cockroaches have wings but cannot fly.

Cockroaches have lived on Earth for millions of years.

Cockroaches have only lived on Earth for a few years.
