# VAMPIRES

A vampire looks like a human.

That is why vampires are dangerous.

They are hard to recognize.

A vampire has pale skin and long pointy fangs. It sucks human blood with its fangs.

Vampires are allergic to sun light, garlic and holy crosses.

They can not be seen in a mirror.

Vampires are not real.

They only exist in stories.

# VAMPIRES

Find the answers to the questions in the text and write them on the line.

① What are vampires allergic to?

---

---

---

② Why are vampires so dangerous?

---

---

---
