The Christmas tree

A lot of people have a Christmas tree in their living room when it is Christmas. Some even go to a forest to find and cut down their own tree.

Once a Christmas tree was something only rich people had.

The tree is decorated with baubles, lights and a beautiful star on top.

There are Christmas presents under the tree.

In England, the presents are opened in the morning on December 25th and the whole family gathers for Christmas Dinner in the afternoon.
